

FIGMA HANDOFF SPEC

Ready for implementation

Welcome to the official developer handoff workspace. Below you will find modular specs, color-coded components, precise interaction paths, and direct CSS/SwiftUI code tokens built for clean development.

PRIMARY COLOR TOKENS

DEVELOPER CHECKLIST

- ✔ SwiftUI & Kotlin Jetpack themes configured
- ✔ Pixel-perfect viewport presets validated
- ✔ Interactive gesture maps mapped out

QUICK START

01

Foundations

Colors, typography, spacing & brand asset specifications.

EXPLORE SECTION >

02

Components

Buttons, text inputs, form controls, and structured card elements.

EXPLORE SECTION >

03

App Flows

Complete interactive screen maps, navigation structures, and branch points.

EXPLORE SECTION >

04

Screen Specs

Fully annotated layout grids, precise dimension properties, and markup.
